TRAINING

TRAINING / PROFESSIONAL DEVELOPMENT

In today's rapidly changing and increasingly competitive Corporate Industry, distinguishing yourself can be a huge challenge, to say the least. What yardsticks would you consider important in illustrating and validating your Professionalism, Advanced Skill, Experience and Understanding in a way that sets you apart from the hundreds of other candidates for a position?

One way is through a Professional Certification. A Certified Professional stands out from the Crowd as an individual who has attained a qualifying level of competence. They are able to provide employers with evidence of their ability to demonstrate a high level of job-related Knowledge and Skills. They possess a documented level of assurance that boosts their confidence and the trust their employees have in them.

This is the Dream we love to see come through at JIT Solutions.

We offer a rich repertoire of the best-selling Courses in the field of Information Technology to choose your Training from. Each of these courses come with an Official Study Kit from our Training Partners and Vendors and presents a memorable Classroom Experience with Practical Simulations and Sessions that are the most applicable to real-life Situations on the Job and in the Industry.

Our Training Instructors are Certified Professional with vast Technical and Cognate Experience in the Information Technology Industry. They pour their wealth of experience into rich Classroom Sessions which enable our Clients and Students benefit from Practical Real-Life Industry Experiences that make them better Professionals outside the Classroom.

OUR COURSES

Some of the Courses on our repertoire include:

SOFTWARE

APPLICATION / SOFTWARE

Application Development is the process of designing a application that meets your specific business requirements. Sometimes, it can prove a more worthy investment to build Applications that meet your unique operational specifications instead of having to adjust your business operations in line with an off-the-shelf application that may or may not do what you really need it to.

Whatever may be your desire, be it more Functionality, enhanced Security, ultra-modern Sophistication, end-user Simplicity, or super Reliability, whether as a standalone System or as an Integrated Module into an existing system, we possess the rich and highly specialized experience and expertise you seek in Application Development with Core emphasis on Design and Management and Maintenance. We implement the most current and up-to-date Tools and Technologies in developing various Solutions that meet Industry Standards, and we are confident you would find us your preferred Application Service Provider (ASP) in not more than a single encounter.

Some of our most popular Application & Solutions include:

- EDU Solutions (School Management System)
- SME Solutions (Business Management System)
- CAMPAIGN Solutions (Political Campaign Management Website)
- AUTO Solutions (Automobile Sales Management Website)
- BUDGET Solutions (E-budgeting System)
- EXAM Solutions (e-Examination System)
- Business Applications
- Accounting Solutions
- Banking Software

- Recruitment Software
- MLM Software
- Customer Relationship Management (CRM)
- Client Management Systems (CMS)
- Medical Applications
- Real Estate Management
- Payroll application and Pension Management System
- Trouble/Support Ticketing
- Shopping Carts
- Comprehensive Online Calendar Applications
- e-Ticketing
- Web-Site Branding
- Insurance Applications
- Reservation Software
- Member Directory Applications
- Store Management Systems / POS
- Hotel Management Software
- Online Catalog Software
- Integrated Tax application System
- E-catalogs and Merchandising Applications

Our development team consists of highly educated and certified professionals and highly skill and experienced Software Engineers with many years of experience in the Industry; and our Web Solutions have gained increased popularity across various sectors and areas of Human Endeavor, and have been testified to produce the best results in the application areas when compared to their contemporaries in the Industry.

CCTV / SURVEiLLANCE

ABOUT OUR CCTV TECHNOLOGY

In today's society, keeping a watchful eye over your property and business is a wise investment. Whether your requirements are for a single or multi cctv camera set up, or to have visual access on or off site, viewing through internet access our complete line of innovative and user friendly digital video management systems will help protect your premises.

JITSolutions prides itself on its highly competitive CCTV pricing structure and always strives to provide the best possible deal.

We can install from just 2 to 128 multiple CCTV camera systems with many optional extras such as wireless cameras, PTZ (Pan Tilt Zoom) cameras and dummy cameras. CCTV systems are available with 24 hour DVR (Digital Video Recorder) recording facility. We give you full training in your chosen system and ensure you are confident in how it works.

Day/Night cameras allow your CCTV system to be effective even in the lowest of light conditions whilst still showing clear colour pictures during daylight hours. Day/Night CCTV cameras will automatically change from colour images to night vision when the light levels drop below a certain level.

Digital Video Recorders (DVR`s) allow continuous digital recording for days and weeks at a time.

Our DVRs also connect to your Broadband router to allow you to view and control your CCTV cameras using a computer or suitable mobile device connected to the Internet from anywhere in the world!

OUR CAMERA SELECTION
Consist of a combination of dome, bullet and hidden cameras with the following additional features which depend on the peculiarity of the installation site: weather resistance, vandal resistance, Day / Night vision, PTZ, wireless, adjustable lens, dummy camera & lots more.

 ***call us today for expert advice, and to arrange a free, no obligation cctv quotation! ***
